Military Ethics and Leadership

Edited by Professor Peter Olsthoorn (Netherlands Defence Academy).

Most books and articles still treat leadership and ethics as related though separate phenomena. This edited volume is an exception to that rule, and explicitly treats leadership and ethics as a single domain. Clearly, ethics is an aspect of leadership, and not a distinct approach that exists alongside other approaches to leadership. This holds especially true for the for the military, as it is one of the few organizations that can legitimately use violence. Military leaders have to deal with personnel who have either used or experienced violence. This intertwining of leadership and violence separates military leadership from leadership in other professions. Even in a time that leadership is increasingly questioned, it is still good leadership that keeps soldiers from crossing the thin line between legitimate force and excessive violence

READERSHIP:

The book is mainly aimed at faculty of universities and military academies and schools, libraries, and anyone interested in leadership and/or military ethics
